

Edward de Bono's Six Thinking Hats

How is our planet
changing?

White Hat (Facts)

What are the facts?
What are the changes?
**What are changes caused by
humans?**

Black Hat (Judgment)

**Whose fault is it?
Who is not doing enough?
People are too selfish to make a
true difference.**

Red Hat (Emotions)

How do I feel about this?
How are living beings affected
because of the changes?
What if nothing can be done?

Yellow Hat (Optimism)

**How could the changes be seen
as positive?**

**What if I could devote all my
time to this cause?**

Green Hat (Creativity)
